The leadership team is excited about our business.	
Our employees are excited about our business.	
We have systems and processes in place to stimulate demand for our products and/or services—we don't hope the phone will ring.	
Our company is efficient booking customer orders into our business systems and executing those orders.	
We rely on business systems and business processes to get things done.	
We aren't people-dependent about how to do or perform specific jobs or functions; we don't need to chase subject-matter experts about how to do things.	
Our business systems allow us to work from anywhere—we are as efficient in the office as out of the office.	
We rely on dashboards and business system reporting to monitor status.	
Roles and responsibilities for each person and core function are clearly defined.	
We have a robust, coherent process for developing new products and services.	
We can rapidly and seamlessly can add new employees into the business and get them up to speed.	
We have a robust system for managing cash and our financials.	
Profitability meets expectations.	
We understand our strengths, weaknesses, opportunities and threats and are taking action to become and remain the best in our marketplace.	
Customer orders are delivered on time; our lead times are competitive.	
Customer-owned material or products sent in for warranty repair are processed and returned expeditiously meeting customer expectations.	
Our quality systems meet ensure quality and consistency.	
Customers would rate us as:	

Areas with a score of 2 or less need immediate attention.
